NUMBER 235

HOT WEATHER

IN OLD LONDON

Several Persons Prostrated and Horses Killed.

HENLEY HAS BEEN ALMOST A FAILURE

COMPARATIVELY FEW AMERICANS WERE PRESENT.

Queen Starts For the Osborne House, Isle of Wight, on Tuesday Next—Week Just Ended Was One of the Gayest of the Gay—Naval Manoeuvres That Were Simply Ridiculous—Miss Green Hunting a Title.

London, July 17.—This week England has been having the first really hot weather of the year. In London there have been several sunstrokes, and a good many horses have died from the heat. Straw hats have appeared again on all sides, and everywhere is heard the complaint that the weather is worse than that of the tropics, although the mercury has not yet gone above 75.

Visiting Americans are luxuriating in this temperature, and are praising London as a summer resort, greatly to the astonishment of the resident Londoners.

In spite of the beautiful weather, and the very exciting contests, Henley has been almost a failure this year as compared with other years. The chief reason probably is the rebellion which has come at last against the extortion practiced at Henley by the hotel-keepers, cabmen and boatmen. This class of gentry have suffered very much in the same way as the jubilee spectators did.

Comparatively few Americans were to be seen among the spectators of the regatta. But a number of Harvard men have been much in evidence, and intensely interested in everything.

The queen will start for Osborne House, Isle of Wight, on Tuesday next. Her decision to leave Windsor castle is a great relief to the royal family, who fear that she is doing too much for her strength. Every day of the week she has been receiving deputations of visitors and entertaining guests at luncheon and dinner. When she received the bishops the other day it was at her own suggestion that a number should be personally invited to her. To Bishop Whipple and Bishop Potter she said:

"I am very glad, indeed, to see you here."

On Thursday the queen received a deputation of Nonconformists, headed by Dr. Joseph Parker, minister of the City Temple, and Dr. McIntosh, Gilman, formerly of Chicago and Toronto. Her majesty received them with even more ceremony than she did the Episcopalians. They all lunched at the castle and then proceeded to the drawing room, where they were ushered into the presence of the queen, who was surrounded by the high officers of the court, with a guard of honor.

While the end of the season is almost at hand, this week has been one of the gayest of the year in London. Every night there have been balls and receptions, at which royals and members of the most exclusive set have been present. One feature of the season, and possibly the chief feature, has been the revival of dancing among the men. Heretofore one of the chief difficulties which London hostesses had to contend with has been the correct thing for the young men to refuse to dance, and only to turn up at supper time.

This year a few prominent hostesses formed a sort of social trust and decided to invite notorious offenders who thought that royal and aristocratic society were rendered their security. The result is that dancing men are again numerous.

The white prerogative of naval manœuvres cannot be a lady. This is owing to a misunderstanding of the orders of the admiralty. The fleet was divided into two parts, one commanded by Admiral Pelham, and the other by Admiral Fisher. He had in his instructions to "reach out to Blackhead bay to await a declaration of war, and then to endeavor to return into the bay without being intercepted by the other division."

When still 90 miles from the rendezvous a cruiser overtook Admiral Pelham, and told him that war had been declared. He then turned about, and, meeting no enemy, entered the bay and telegraphed to the admiralty.

"The war is over."

After several hours silence the admiralty sent him a curt order to go to the rendezvous 200 miles west.

This he did, and returned again. As he approached the fleet he was directed to a misunderstanding of the orders of the admiralty. The fleet was divided into two parts, one commanded by Admiral Pelham, and the other by Admiral Fisher. He had in his instructions to "reach out to Blackhead bay to await a declaration of war, and then to endeavor to return into the bay without being intercepted by the other division."

IN FAVOR OF THE CITY

Judge Norrell So Decides in the Tax Case.

TRANSCENDED THEIR DUTY

COMMISSIONERS SO ACTED IN REDUCING THE ASSESSMENT.

"MAMMA" FIXED IT.

Reconciliation of the Bradburys Said to Be Complete.

Chicago, July 17.—John H. Bradbury, the young California millionaire and his wife, who eloped a few weeks ago with H. Russell Vance, a single man and Englishman, who has a wife and family in England, have been reconciled. Mrs. Bradbury and her mother, Mrs. Hanning, who were at the station by Mr. Bradbury. All three repaired to the Wellington hotel—Mrs. Hanning taking charge of the situation and answering all inquiries. The husband and wife spent most of the night with Mrs. Hanning, discussing the proposed reconciliation, and today there was talk of the slightest doubt in the minds of the hotel people that Mr. and Mrs. Bradbury were reunited. They remained in their room and Mrs. Hanning had all cards and messages sent to her room on another floor of the hotel. She declined to make any answer to inquiries.

The reunited couple are expected to leave for the east tonight and sail for Europe in a few days.

PREHISTORIC DISCOVERIES.

STARTLING STORIES COME FROM SOUTH DAKOTA.

Entire Settlement Which Invites the Closest Attention of the Archaeologists.

St. Paul, Minn., July 17.—The St. Paul Dispatch today published a detailed account of an exploring expedition recently sent by the University of Louisiana to the Missouri river valley in South Dakota. The prehistoric mounds there has been known to the expedition for a long time. The party located two distinct fields of prehistoric mounds and one well preserved fortification within a distance of five miles in length and three-quarters of a mile wide. Both groups of mounds are of considerable magnitude.

The largest group was located opposite the mouth of Grand river and contains 500,000 square feet of territory mounds upon the field, an elevation of 175 feet above the Missouri river. One of the largest mounds was opened by the party and immense quantities of prehistoric specimens secured and brought to the city.

The second field of mounds within the same area was four miles distant and to some extent obliterated by the plow. But there was upwards of fifty mounds in this field of prehistoric pottery, stone and some implements were found here also in large numbers. Close to the edge of this second field, which is in Washington county, South Dakota, the party found several trenches containing human skeletons and several skulls were brought back. The skulls are harder, thicker and heavier than those of a negro, and much like those of the Indian of the Columbia area. A mile and a quarter from this place, the party located a well preserved fortification of earth still showing the outer and breastworks, the ditches and inner works.

The gateways or entrances to the fortifications are well marked. Here the evidence of prehistoric character was abundant and a number of mounds as though an entire prehistoric settlement had been properly located. The field invites the closest attention on the part of the archaeologists.

THE RUZZ CLAIMS.

Minister Woodford Instructed to Press Them.

Washington, July 17.—The government has directed United States Minister Woodford to formally present to the Spanish government and press the claim of the family of the late Dr. Ruiz of \$75,000 on account of his death in jail in Cuba.

Dr. Woodford's instructions, just completed, set out the reasons for the presentation of the claim in detail. They show that this government, animated solely by the love of truth and right and a spirit of justice, after mature consideration of the substantial and uncontroverted facts in the case, has reached the conclusion that under the treaty of 1825 and the protocol of 1826 between the United States and Spain, and the law of 1821, made part of the protocol of all the proceedings against Ruiz after his arrest and the denial given to the Cuban authorities of his American citizenship, were illegal, wrongful and arbitrary.

It is held that the proceedings are a violation of his treaty rights and would therefore warrant the demand for indemnity.

While the circumstances would justify the demand for a much larger sum of money, yet Mr. Woodford is instructed to say that in proof of spirit of moderation and absolute justice which the United States government is animated, the government of Spain is requested to pay the indemnity asked.

McCORD IS CONFIRMED.

Washington, July 17.—The vote on Mr. H. H. McCord's confirmation as governor of Arizona was taken immediately after the senate went into executive session today, and without further debate. The vote stood 29 to 18.

After the confirmation of McCord, the senate took up the contested nomination of J. W. Hughes, to be postmaster at Birmingham, Ala. The charges against Mr. Hughes were of a purely personal character, and related to his relation to creditors. Senator Charles, acting chairman of the committee, opposed confirmation, while Senator Pettus, Democrat, espoused Mr. Hughes' cause. After speeches by these senators, the vote was taken, resulting in Mr. Hughes' confirmation.

Child Burned to Death.

Sacramento, Cal., July 17.—Last Thursday evening, near Freeport in this county, the little son of Anton Darnold played with fire. The flames ignited his clothing and he was burned so badly that he died Friday morning.

CHURCH SERVICES.

Notices in This Column Free if Handed in Before Noon on Saturday.

Suits Filed.

Charles H. Lashbrook has entered suit in the Third district court against Emanuel Rauch, alleging that he is the owner and entitled to the possession of The Upper Ten mining claim in the West Mountain mining district, and that the defendant, claiming to be the owner of the Argentine mining claim adjoining, caused the latter to be so surveyed as to overlap the Upper Ten lode, and maintains an application for a patent to the Argentine as so surveyed.

Plaintiff prays that he be declared the owner of the Upper Ten lode as surveyed by him, and that he have judgment for \$1,000 damages against the defendant.

Eleanor D. Russell and William Fullerton are suing Ledyard M. Bailey, as administrator of the estate of James R. Rogers, deceased, the former to recover \$1,170.38 and the latter \$2,500, and for foreclosure of the mortgages securing the same.

Court Couplings.

The case of Charles Hecht vs. Joseph Mettler was yesterday transferred from the state district court to O'Brien to the United States district court in this city. The suit is brought to recover \$7,555, the plaintiff alleging that he traded certain farm lands and other property in Colorado for O'Brien city property, which latter the defendant warranted to have clear titles and to be worth a large sum of money, but plaintiff afterwards discovered that the said property was worth very little, and he claims judgment in the sum named for damages.

Florence A. the infant daughter of Mrs. Sarah Rawlings, was yesterday adopted by Mr. and Mrs. Jerram. The mother of the child consented and the legal steps were consummated before Judge Hiles.

Ray Reading, Gay Reading and Roy Brown, the first named aged 14 and the two others aged 12, were called before Justice Sommer yesterday on a charge of doing malicious mischief by throwing stones at a passing Oregon Short Line train and breaking the windows of the coaches. The offense is alleged to have been committed at Loveland, and the complaint is sworn to by Joseph Jones. The boys were held until Wednesday at 10 a. m., when they will have a hearing.

Charles E. Paulsen was granted a decree of divorce from Mary M. Paulsen on the grounds of desertion. Messrs Smith & Nielsen were the attorneys for the plaintiff.

Judge Hiles' division of the Third district court was formally adjourned until Aug. 30.

The True Remedy.

W. M. Reppine, editor of the Klallam, Ill. Chief, says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experience with many others, but never got the true remedy till we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have a certain and sure cure for Coughs, Colds, Whooping Cough, etc. It is idle to experiment with other remedies, even if they are urged on us as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures, and besides is guaranteed. It never fails to satisfy. Trial bottles free at Z. C. M. I. drug dept."
